

## Arithmetic on Modular Curves

Filesize: 6.72 MB

### **Reviews**

*A brand new eBook with a new standpoint. I have got read through and i also am confident that i will gonna read again once again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Book Condition: New. Publisher/Verlag: Springer, Basel | One of the most intriguing problems of modern number theory is to relate the arithmetic of abelian varieties to the special values of associated L-functions. A very precise conjecture has been formulated for elliptic curves by Birch and Swinnerton-Dyer and generalized to abelian varieties by Tate. The numerical evidence is quite encouraging. A weakened form of the conjectures has been verified for CM elliptic curves by Coates and Wiles, and recently strengthened by K. Rubin. But a general proof of the conjectures seems still to be a long way off. A few years ago, B. Mazur [26] proved a weak analog of these conjectures. Let  $N$  be prime, and  $f$  a weight two newform for  $\Gamma_0(N)$ . For a primitive Dirichlet character  $\chi$  of conductor prime to  $N$ , let  $L(f, \chi, 1)$  denote the algebraic part of  $L(f, \chi, 1)$  (see below). Mazur showed in [26] that the residue class of  $L(f, \chi, 1)$  modulo the "Eisenstein" ideal gives information about the arithmetic of  $X_0(N)$ . There are two aspects to his work: congruence formulae for the values  $L(f, \chi, 1)$ , and a descent argument. Mazur's congruence formulae were extended to  $\Gamma_0(N)$ ,  $N$  prime, by S. Kamienny and the author [17], and in a paper which will appear shortly, Kamienny has generalized the descent argument to this case. | 1. Background.- 1.1. Modular Curves.- 1.2. Hecke Operators.- 1.3. The Cusps.- 1.4.  $L$ -modules and Periods of Cusp Forms.- 1.5. Congruences.- 1.6. The Universal Special Values.- 1.7. Points of finite order in  $\text{Pic}_0(X)$ .- 1.8. Eisenstein Series and the Cuspidal Group.- 2. Periods of Modular Forms.- 2.1. L-functions.- 2.2. A Calculus of Special Values.-...
