This was not the familiar gapes of the British poultry-yard, but is described as a kind of cholera, so bad that villages have been losing their entire stock, with the natural consequence that the market prices of poultry and eggs have greatly increased--charges, in fact, having doubled and even trebled. Experiments have been tried in the investigation of the disease and the manner of treating it, but so far the only successful way of dealing with the trouble seems to have been by isolation. But there appears to be every probability of the disease proving only of a temporary nature, and that the production of poultry will be as easy, simple, and remunerative as of old; for, as may easily be understood, poultry farming is bound to be of vast importance in a hot country. Every traveller recalls what a staple food...
