OCLC Number: (OCoLC)263148676 Subject: Water quality -- Colorado -- Summit County. Excerpt: . . . than 0.05. A p-value expresses the probability of detecting a trend when no trend is present. A detailed discussion of Kendall's tau and its application is included in Helsel and Hirsch (1993). Because Kendall's tau depends upon the rank of data rather than a numerical value, an analysis using the core depth or the estimated year of deposition would yield the same results. In most cases, core depth (x variable) was paired with constituent concentration (y variable); the results were used to make inferences about trends in water quality within the reservoir over time. Mass loads of trace elements were determined for water entering and leaving the reservoir during water years 1997 and 1998. The loads were calculated as a sum of daily loads, using daily mean flow from gaging stations located near the sampling sites in a regression based on the log of the instantaneous concentration relative...

Reviews

A top quality ebook as well as the typeface used was interesting to see. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dr. Isabell Wiza DDS**

It is one of the most popular ebooks. I have got to study and I am certain that I am going to likely read again yet again in the future. I am happy to inform you that this is actually the greatest ebook I actually have studied inside my very own life and might be the best ebook for possibly.
