By -

Little Toller Books. Hardback. Book Condition: new. BRAND NEW, Orison for a Curlew, The Slender-billed curlew is one of the world's rarest birds. A beautiful, fragile creature, it breeds in Siberia and winters in the Mediterranean basin, passing through the wetlands and estuaries of Italy, Greece, the Balkans and central Asia twice a year. Following the bird's migratory path takes the award-winning writer Horatio Clare on an odyssey through a fractured Europe, to the edges of the land, and into the lives of the men and women who have fought to save and preserve the worlds to which the bird belonged. We travel with soldiers, beggars, students and green superheroes, including the father of ornithology in Greece, an extinction myth-buster in Romania, a Hungarian who invented the Danube delta biosphere...

*This book will be worth getting. Better than never, though I am quite late in starting to read this one. It has been written in an extremely basic way which is only right after I finished reading this book through which actually altered me, alter the way I believe.*
